

PHOTOVOLTAIC
AND ENERGY STORAGE
INDUSTRY ASSOCIATION

**Join the strongest RES
industry organization
in Poland and start shaping
the market!**

Your seat at the table where decisions are made.

Benefits #1

Influence & Knowledge

1

Direct impact on legislation

you don't wait for regulations – you co-create them.

2

Knowledge unavailable to the market

you receive priority access to legal analyses.

3

Monthly briefing

monthly operational meetings online.

4

Legal session

quarterly consultations with a leading RES law firm.

Your seat at the table where decisions are made.

Benefits #2

Networking

1

Access to key RES players

We connect you directly with the largest distributors, manufacturers and subcontractors in a B2B format.

2

Ongoing operational support

Engagement in internal forums and working groups. A space dedicated to experts for immediate consultations and eliminating legal and technical barriers in projects.

Your seat at the table where decisions are made.

Why is it worth it?

HOW DO WE OPERATE?

See for yourself!

- 1 Legislation:**
effective lobbying and real influence on shaping RES law in Poland.
- 2 Knowledge:**
delivering niche market and technical information first-hand.
- 3 Networking:**
building business relationships across the entire PV and BESS value chain.
- 4 Image:**
building industry authority and professional expert communication.

Your seat at the table where decisions are made.

REAL IMPACT

Successes that protect your business

- ✚ **We stopped harmful regulations** by MRiT (WT2025), which would have forced a 30-60% cost increase for every energy storage installation.
- ✚ **Effective lobbying for the "Moj Prad" program**, which is currently the main driver of energy storage sales in Poland.
- ✚ **We blocked** an attempt to introduce a **Building Permit** for systems starting from **20 kWh**.
- ✚ We shortened the grid connection conditions process for installations up to **2 MW from 150 to 45 days**

Your seat at the table where decisions are made.

DEMANDS 2026

Unlocking the C&I market potential

- ✚ **Abolition of Building Permits (PnB) up to 1 MWp.**
We want every rooftop installation up to 999 kWp to be carried out without unnecessary PnB bureaucracy.
- ✚ **Stop expensive telemechanics up to 150 kWp.**
We fight to abolish costly telemechanics requirements for smaller units, saving tens of thousands of PLN on every C&I investment.
- ✚ **Simplified pathway for Energy Storage.**
We advocate for simplified documentation for in-building storage (up to 100 kWh).
We want storage to become a national safety standard (MOD / RCB).
- ✚ **AC Power = Installation Power**

Your seat at the table where decisions are made.

DEMANDS 2026

Energy: safe, affordable, universal.

- ❖ **Increasing Net-billing profitability.**
Ability to pay all invoice components from the deposit and full refund of surpluses.
- ❖ **Earning from storage.**
Introduction of active energy trading mechanisms. Your client becomes a market player.
- ❖ Solving the "**2031 Gap**"
- ❖ **EU Standard 30.**
Promotion of homes with extremely low energy demand.
- ❖ **Safe Balcony PV:**
Clear technical guidelines for "Plug-In" kits in apartment buildings.

Your seat at the table where decisions are made.

WE SET STANDARDS and tools supporting sales

- ❖ **First guidebook** educating and promoting energy storage "**Store Energy**". We set standards.
- ❖ Patronage of **NFOSiGW**, the institution responsible for subsidies in Poland.
- ❖ Calculator and guidebook available at **magazynuenergje.polskapv.pl**

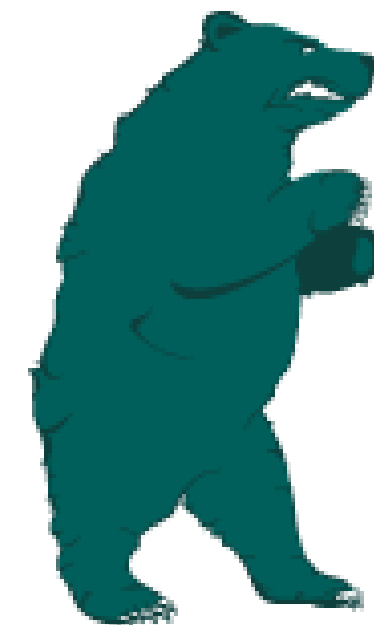

Your seat at the table where decisions are made.

REAL LOBBYING POWER

Your brand in official dialogue with the government

- ❖ **ZPP - Union of Entrepreneurs and Employers** The largest nationwide business organization in Poland, associating over 50,000 companies.
- ❖ Being on the **Social Dialogue Council** (G2G Level), ZPP has a guaranteed seat at the "**main table**" with the **Council of Ministers**.
- ❖ Our strategic goals are included in the **official ZPP program**. This gives your company real lobbying power and legal protection at the national level.
- ❖ Warsaw - Brussels - Kyiv. Permanent representations.

ZPP®

KEY POINTS

What sets us apart?

C&I Sector: Our main focus. A growing segment requiring legislative support.

Residential: maintaining stability of the domestic market through intelligent energy management systems.

Energy Cooperatives: support for distributed generation communities, the future of local independence.

Balcony PV: a new segment. Setting safety and ease-of-installation standards (Plug & Play).

Your seat at the table where decisions are made.

Together we shape the future of RES

1

We have **real impact** on legislation and standards.

2

We provide **tools** to grow your business.

3

We build the strongest **community** in the industry.

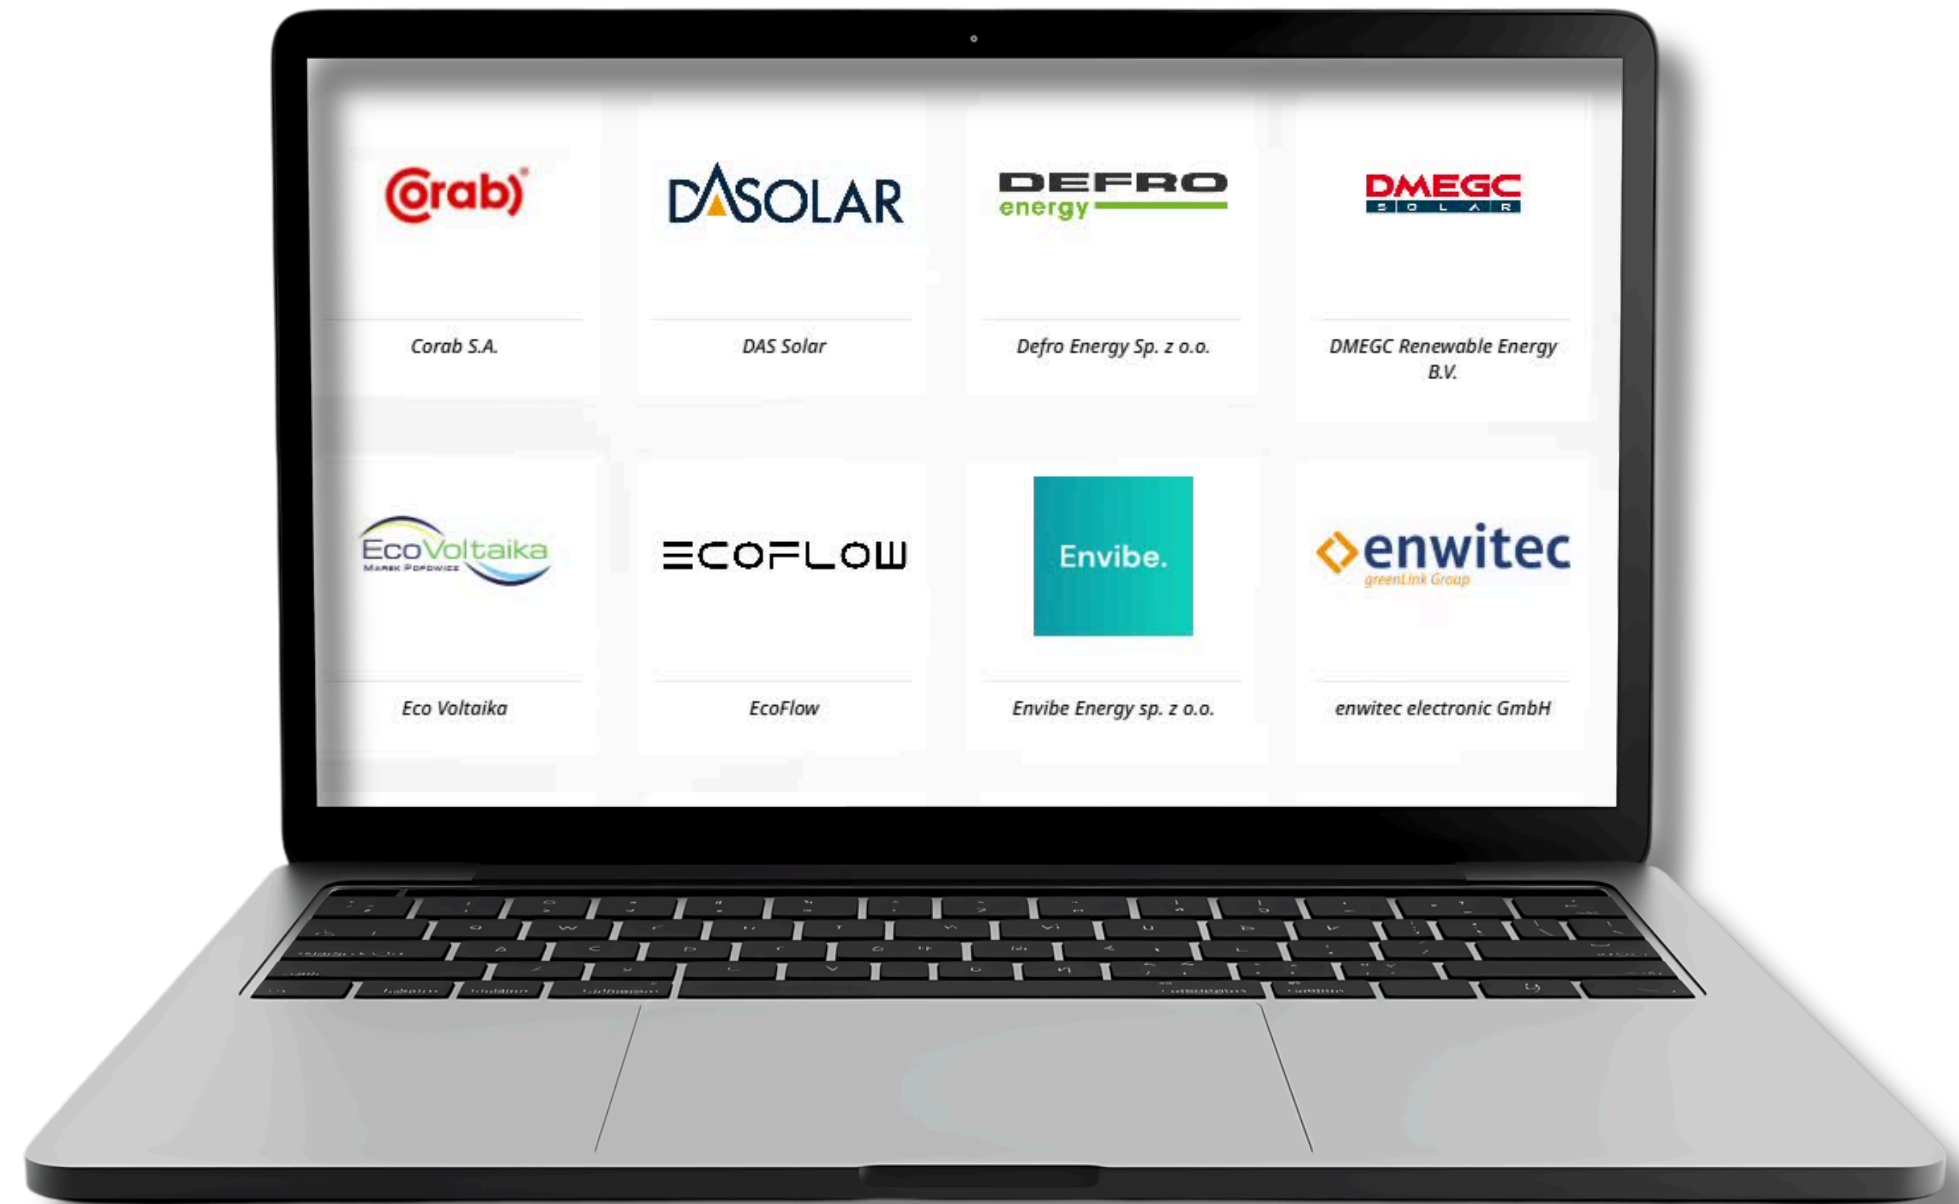

Your seat at the table where decisions are made.

WHY US

Dozens of companies trust us!

↻ **We connect the entire industry.** We enjoy the trust of entities from every stage of investment - from production to final installation.

↻ **80+ industry leaders:** we create a networking community in the industry.
